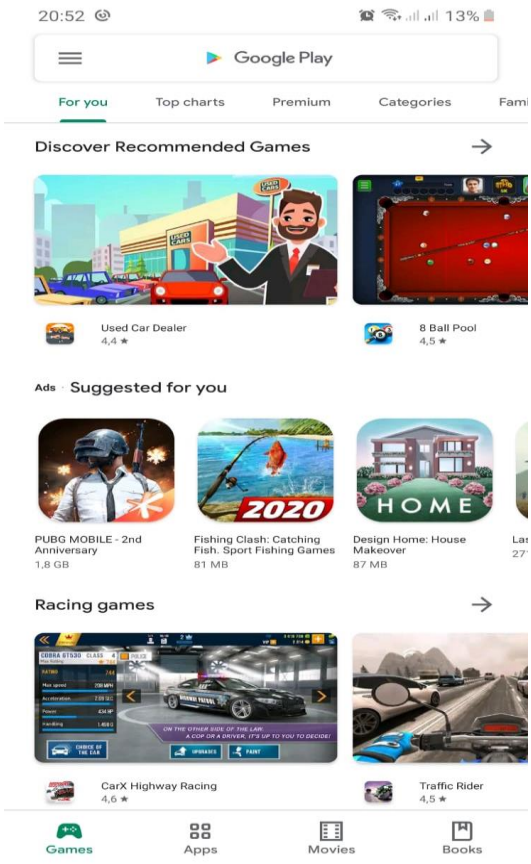
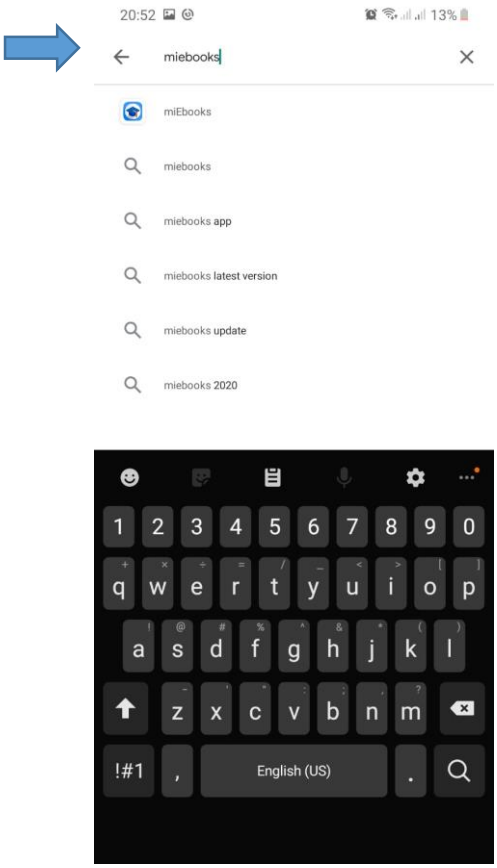
How to install and use miEbooks
Guide for parents during Lockdown Period

Please note that below is a step by step guide on how to install and use miEbooks.
The pictures in the below steps shows how to install miEbooks on an Android phone. The same steps can be followed for iPhones and Windows.

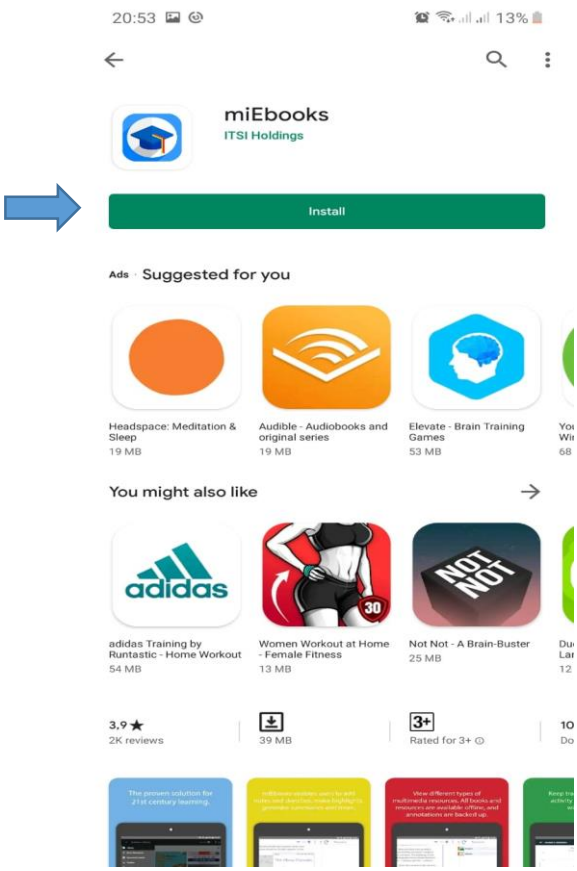
Step 1: For Android – Go to your PlayStore
For Apple – Go to the Store
For Windows – Go to the Microsoft Store



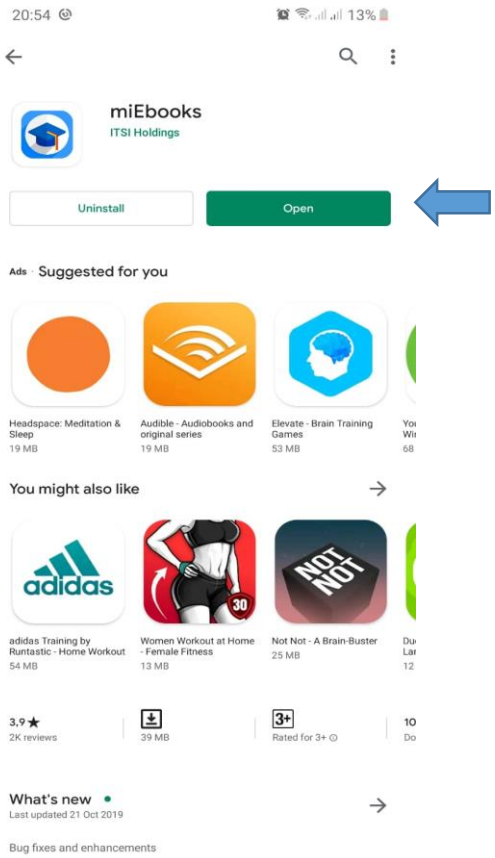
Step 2: Search for miEbooks in the available search bar.



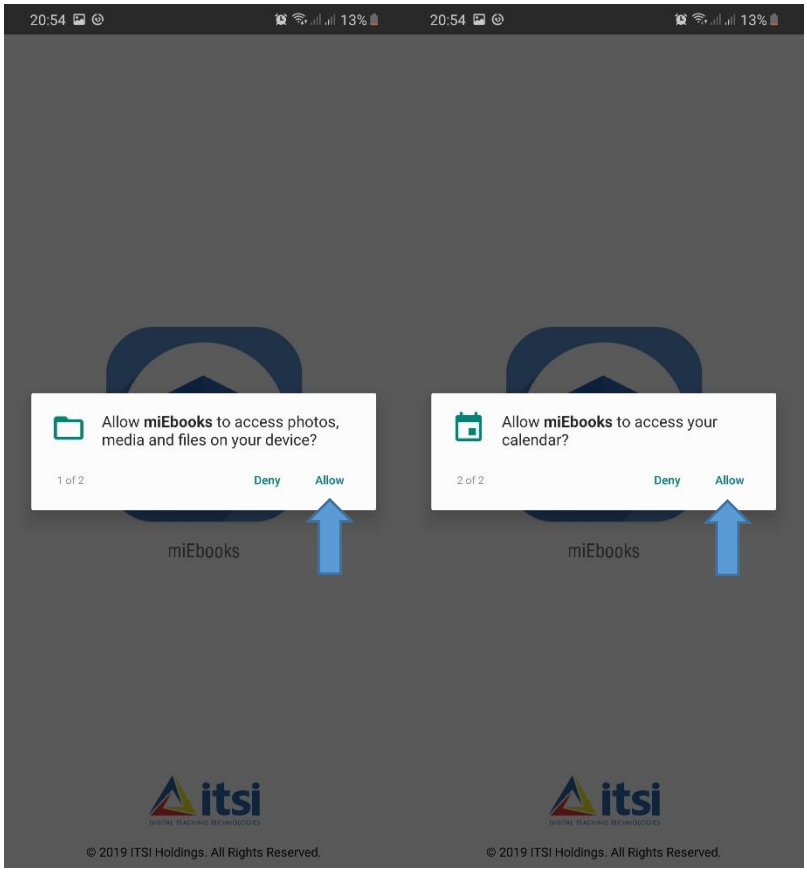
Step 3: Click on Install.



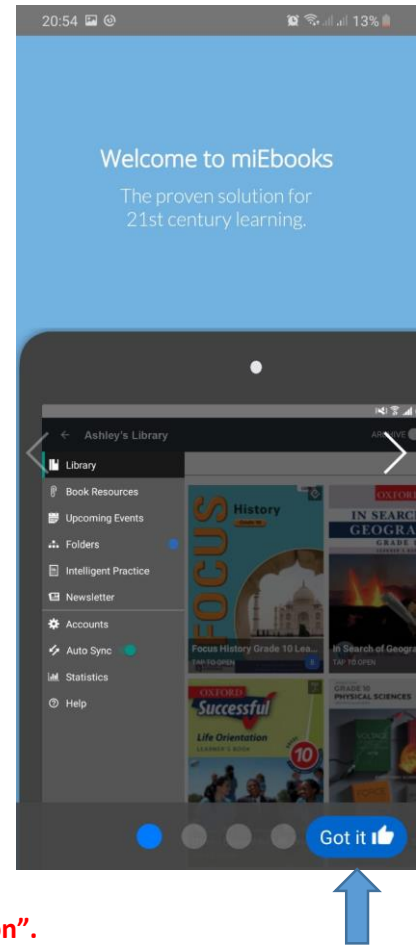
Step 4: Wait for miEbooks to download and click on open.



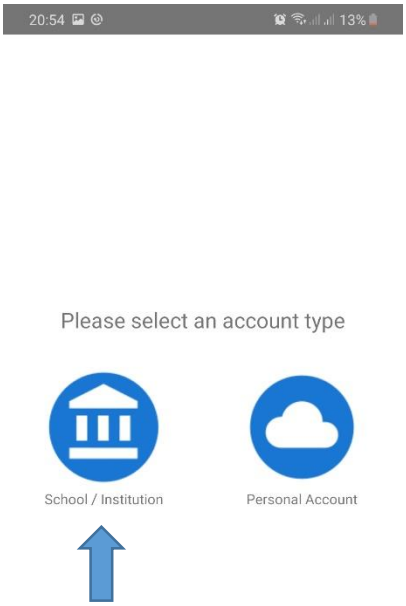
Step 5: Click on Allow both times when prompted.



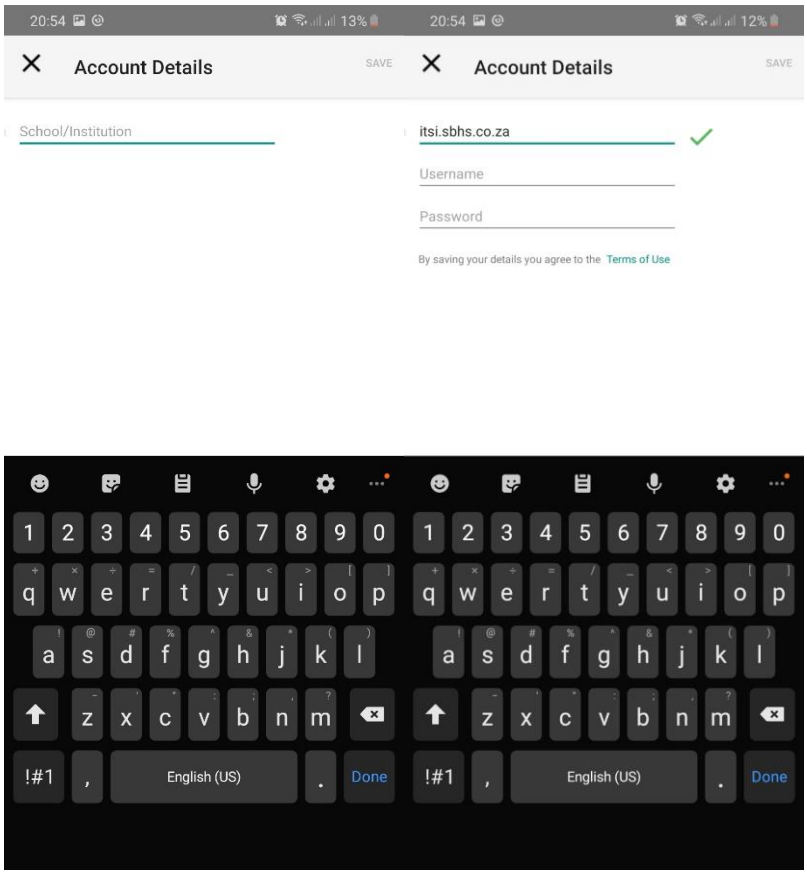
Step 6: Click on "Got it".



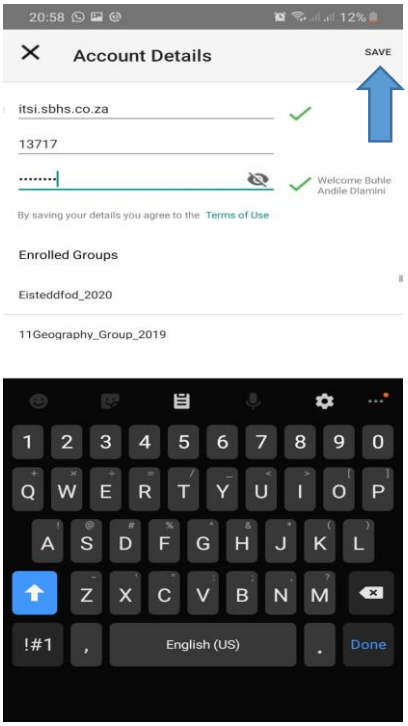
Step 7: "Click on School/Institution".



Step 8: When shown the first screen, type in itsi.sbhs.co.za.
When typed in correctly, a green tick will appear with two more fields "Username" and "Password".

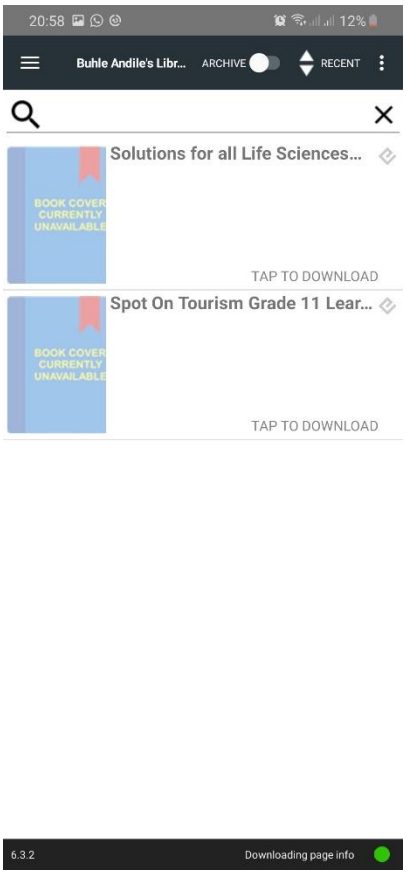


Step 9: Type in your sons' username and password.
They should have it – if they do not and you need it, you are more than welcome to email support@sbhs.co.za and request it.
Once the username and password have been entered, you will see a green tick and it will say "Welcome _____". Click on "Save" in the upper right corner.

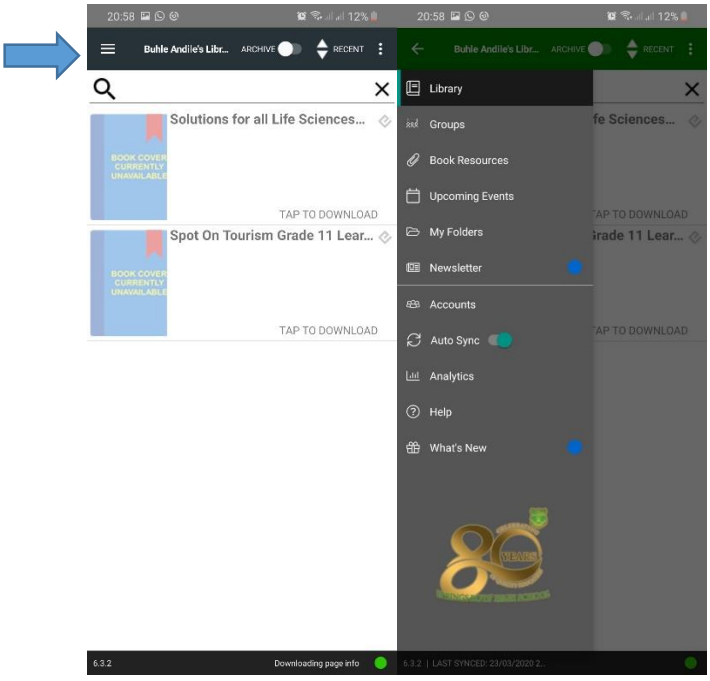


Step 10: Now you will be able to see all the books allocated.

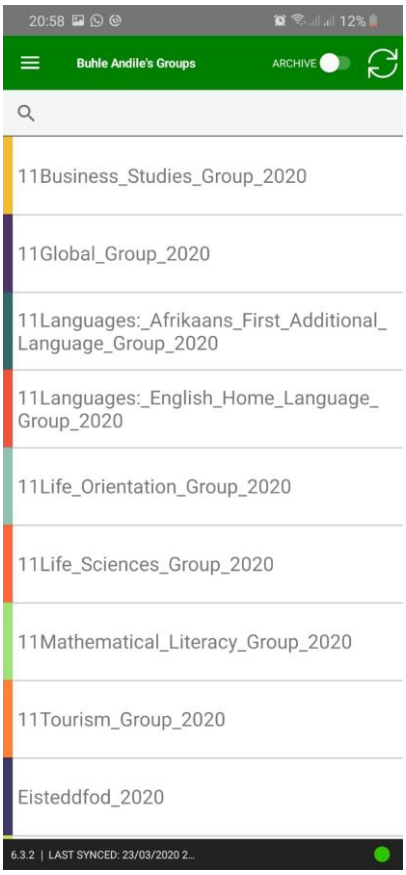
Please note that when you log into a new/different device, the books will not open as they are bound to one device. Please email support@sbhs.co.za to request the binding be switched to the new device if necessary.



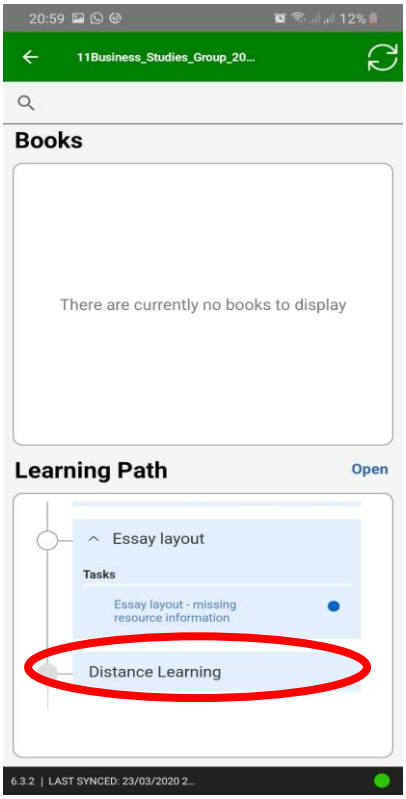
Step 11: Click on the three lines on the top left. A menu will open – click on "Groups".



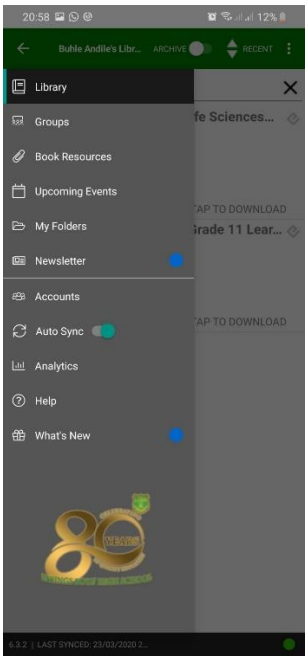
Step 12: Here you will see all the groups allocated. This is where additional resources from teachers are uploaded to students.



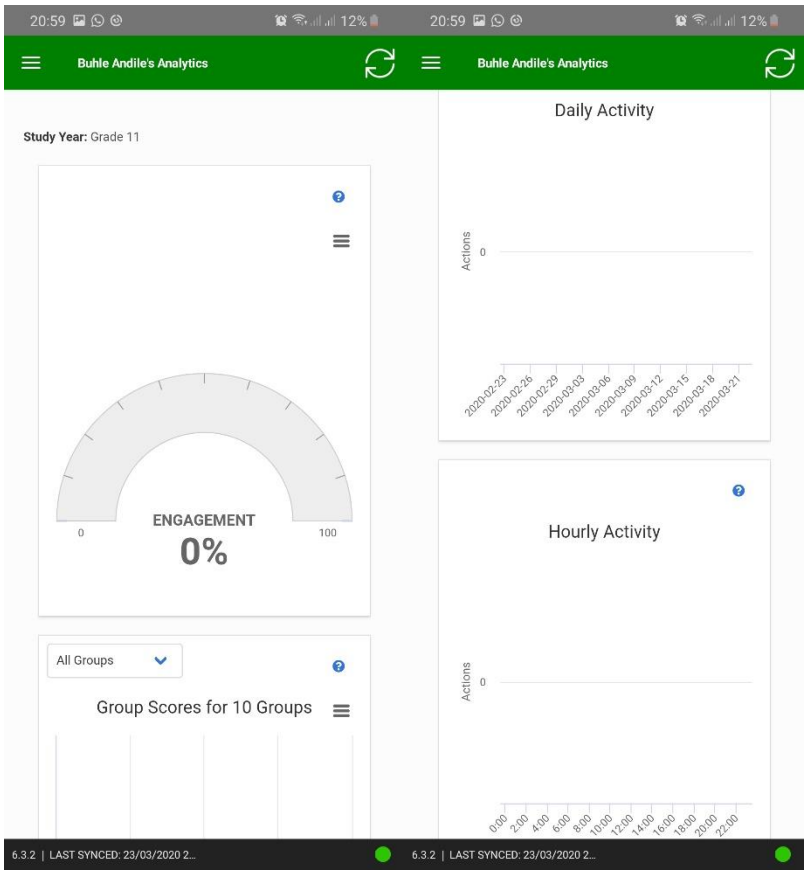
Step 13: If you open one of the above groups, you will see a folder called "Distance Learning". This is where all the work/resources will be uploaded for the "Lockdown Period".



Step 14: Go back to menu and click on "Analytics".



Step 15: On Analytics, you will be able to see your sons' overall engagement in his work. You will be able to see his daily and hourly activity to ensure that he is working.



For any other assistance or if you should have any queries, please email support@sbhs.co.za.
